How to Give to the Church Using Your Bank's Online Bill Pay Feature

One quick and easy way to give electronically is by using the "Bill Pay" a feature of your bank's website. This service is normally provided free of charge both to you (the bank's customer), and to the church. And when you give online using a Recurring Payment, you never have to worry about

forgetting your checkbook or being out of town. Instead, your gift can be deducted automatically from your account without you ever having to manually write a check.

Each bank's website will be slightly different, but here is how the basic process works:

1. Log on to your bank's website and click on the link for the "Bill Pay" feature.
2. Add the church as a Payee. If account number is needed, enter your envelope number. Address to All Saints Catholic Church, PO Box 392, Gladstone, MI 49837-0392.
3. Set up a Recurring Payment to be sent to the church on a scheduled basis (weekly, monthly, etc.). You can also send a one-time gift (e.g., for a special annual offering).
4. Each time you make a gift (either one-time or recurring), the bank will mail a check to the church. This check will be deposited into the church's bank account just like a regular, handwritten check.

If you need help with your bank's specific website, there should be a "Help" or "FAQ" (Frequently Asked Questions) link under the Bill Pay section of the website or you can contact your bank for assistance.

FROM THE PASTOR'S DESK

Throughout our country and the world, the effort to vaccinate people against the coronavirus continues. This weekend at All Saints, we are offering a unique opportunity. If you

would like to be vaccinated, or receive a booster for a previous vaccination, you can do so in our parish hall after Mass this Sunday (January 23rd). No appointment is necessary. Just bring your insurance information down to the parish hall and one of the nurses will be able to help you. Specific details are available in the information block elsewhere in this bulletin. This year's flu shot will also be available.

A couple times over the past two weeks, I've been asked again about the Catholic Church's stand on the coronavirus vaccines. Once again, let me share with you the correct information regarding the moral acceptability of these vaccines because, as I'm sure you have found, there is a great deal of misinformation floating around.

On December 18, 2020, the Bishops of Michigan, including our own Bishop John Doerfler (who is trained as a moral theologian for the Church), published a letter publicly voicing the Church's acceptance of the coronavirus vaccines. *"It is morally permissible to receive the vaccines developed by Pfizer and Moderna."* The major moral concern raised against using the vaccines was the charge that aborted babies were

used in the development of the vaccines. The Bishops state: *"Neither of these vaccines used cell lines originating in tissue taken from aborted babies in their design, development, and production."* Later on when an additional vaccine was approved for use in the United States, the Bishops pointed out that there were some problematic steps in the development of the Johnson and Johnson vaccine, however it was permissible in some cases to use this third vaccine (for example, if there were serious concerns over a person's health and a one-dose vaccine could mitigate the risk). You can read the whole document at www.dioceseofmarquette.org.

In a recent video, Pope Francis once again voiced his support, urging people to get vaccinated against COVID-19, and calling it *"an act of love."* The video, which is readily available online, includes the Holy Father, along with bishops and cardinals from all over the Americas, calling the act of getting vaccinated, *"Love for oneself, love for our families and friends, and love for all people."* Pope Francis reminds us that love is built up through *"small, individual gestures, capable of transforming and improving societies."*

"Getting vaccinated is a simple, yet profound way to care for one another, especially the most vulnerable," he said. *"No matter how small... love is always grand."*

Over the past year, I have spoken to many people about their concerns regarding the

vaccines. Much of my conversations center on getting a proper understanding of the Church teaching regarding the vaccines. But some people have shared with me that their compromised or delicate health conditions make getting vaccinated risky. Although the vaccines have proven to be very safe, with about 9.37 billion doses already given, it appears that different people experience the vaccine in different ways. For me, the side effects were mild. I experienced fatigue for a day or two, and my arm hurt; but nothing too bad. My booster side effects were the same; just a little more intense and lasting a bit longer. That seems to be the common story. Regardless, if anyone is concerned about how they may react to a vaccine, they should consult their own doctor and work out the option that is best for them.

One thing that is important to point out is that according to Catholic moral teaching, we are not obligated to get vaccinated. It is a choice. So this weekend, if you choose to get a flu shot, if you would like to get vaccinated, or if you haven't gotten around to getting a booster and would like one, you can do it easily just by heading down to our parish hall after Sunday Mass.
