Parish News

Dear Friends,

This week work will begin on the heating and air-conditioning system of the Church. **This project is expected to take several months to complete and, for at least a few weeks, be a little inconvenient for parishioners attending Sunday Masses.**

In the first phase, the west side of the Church will be cordoned off with plastic sheeting to hold down the dust while the contractor takes apart the ceiling above the side aisle and installs new duct work and ceiling louvers. This means that the doors to the Church on the west side will be locked while this work is underway. Please enter through the Gathering Space and the north east entrance.

Once the west side construction is complete the same pattern will be followed for work on the Church’s east side – a plastic dust barrier, disassembly of the ceiling and installation of duct work and louvers. This work in the nave and aisles of the Church are expected to take at least a month.

This project was prompted by an engineering study done in 2012. That study, by R.E. Dimond and Associates, Inc., reported that the Church heating and air-conditioning equipment were well past their design life, and in some cases, well over twice the median design life of the equipment.

More recently, we discovered that the AC equipment is leaking R-22. R-22 is a coolant gas that is expensive and hard to find. It is a hydrochlorofluorocarbon with a high ozone depletion potential. This coolant gas has been phased out in the United States under the Montreal Protocols and new supplies are no longer available. In short, our AC system is running on borrowed time!

In July 2018 we received a $45,000 grant from the Archdiocesan James P. Scott Endowment that I am using for engineering services. I hired Circle Design engineers to design a new air-conditioner for the Church, to supervise the bidding process and to oversee construction. Three HVAC companies bid on the project and Commercial Service of Bloomington won the contract.

The new system Commercial Service is installing is designed for a church capacity of 569 people. It will supply cool air both from the ceiling and the floor. The system will also provide fresh conditioned air to the worship space, something our current equipment cannot do. There will be a special exhaust installed over the altar to remove incense smoke too. I believe you will be pleased with the performance of this new equipment.

In the meantime, I am asking for your patience while construction is underway. We are striving to get everything up and running as soon as possible.

Thanks,

Fr. John

If you are a victim of sexual misconduct by a person ministering on behalf of the Church, or if you know of anyone who has been a victim of such misconduct, please contact the archdiocesan victim assistance coordinator. There are two ways to make a report:

Did you know? Indiana law requires that any individual who has reason to believe that a child is a victim of abuse or neglect must report immediately to the local Child Protection Services agency (800-800-5556) or a local law enforcement agency. Under Indiana law, it is a criminal act not to make such a report. This law applies to all adults without exception.

Temporary Help Needed At St. Vincent de Paul

The end of the IU school year ushers in a very busy season for the Society of St. Vincent de Paul.

Students leave for home and many donate their furniture. This presents a great opportunity to collect a large amount of furniture that then gets distributed to those families in need. In the week for May 6 to May 10, we would like to run two daily shifts to pick up furniture.

These shifts are Monday thru Friday from 10am to 2pm and Monday, Wednesday, and Thursday from 5 to 8pm and Tuesday from 4 to 7pm.

If you can help with any of these shifts to pick up furniture and deliver it to our warehouse of have any questions, please contact Ed Dolan at 812-390-3771. For more information on the Society of St. Vincent de Paul, please check out our website, www.svdpbloomington.org.
