**SPIRITUAL ADOPTION PROGRAM**

**DAY 1—Developing Baby—“I’m here!”**

At the moment the father’s sperm and mother’s egg unite a new and unrepeatable human being comes into existence, complete with his own unique set of DNA. Although she is only one cell, everything about this little person is already present: color of eyes, blood type, the height she will grow to be, color of hair—everything! She will play a role in her family and her community—a role only she can play! Nothing is added after conception to make her a complete human being. She already exists; all she needs is nourishment, a safe, warm environment, and most of all—love. Her parents don’t even know she exists yet. Pray for them to safely bring their baby to birth so she can fulfill the mission God has for her.

As Fr. Joe put it, “All the families here (rural Haiti) are poor, but some are in truly pitiful shape.”

But thanks to the generosity of SMOTIC and SMHOC, many good things are happening in Ranja, Haiti (just outside of Jeremie). Footings for the school have been poured, students have textbooks, teachers have been paid, parents are receiving monthly education, a mill was purchased for grinding crops for the Ranja farmers, and a Christmas party was held where students received a delicious meal and a pair of sunglasses. In addition, the Plat Cho food program continues to feed the elderly and mentally ill who live on the streets of Jeremie.

Fr. Willy sent his sincere thanks to the generous supporters which made all these things possible and for your continued prayers for Haiti. Since 1998, St. Mary’s has helped thousands of people move from misery to poverty and given them hope in times of despair.

**ST. MARY SCHOOL NEWS**

**Greetings from the Second Grade!**

Happy New Year!

In Religion class we have been learning about the sacraments. We have discussed many Bible stories including: Moses and The Ten Commandments, The angel Gabriel visiting Mary, and The Epiphany.

We are very excited to share with you that in December we received the sacrament of Reconciliation for the first time!

In Reading class we continue to review short vowels, learn about long vowels, digraphs, syllables and compound words. We have also continued to read the many interesting stories in our reading series.

In Science, we have just completed our whale unit. During this unit, we completed several activities to see how we can save water, both at home and school, in order to help protect one of our natural resources. We made our own whale books and endangered whale dioramas and presented them to the class.

In Math, we continue to work on money, time, addition and subtraction facts.

We have just started learning how to write in cursive!

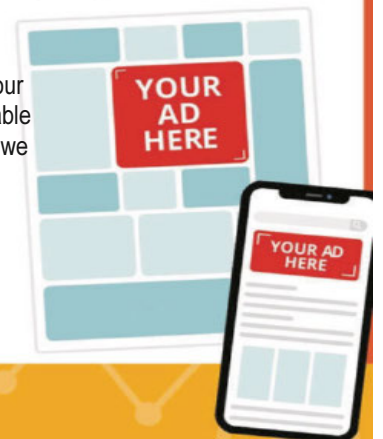

We hope you have a good week!

Mrs. Raines and the Second Graders

# ST. MARY OF THE IMMACULATE CONCEPTION RENOVATION REPORT

*Your weekly update on the progress of the renovation at  
St. Mary of the Immaculate Conception.*

## Lower Level Drywall Goes In

Now that most of the interior utilities work has been finished, crews can begin closing in the steel studs throughout the lower level. These images were taken from the new Dining Hall, which makes up a large portion of the lower level addition. The image on the left shows the entire dining hall from the northwest corner of the site, where a new stairwell will lead up to the Gathering Space above. The image on the right shows the interior of the new kitchen, which will allow us to hold a wide variety of functions in the new space.

## North Exterior Completed

The image to the left shows the finished exterior on the north side of the addition. The left-most part of the image is the addition on the east side of the church. The right-most part of the image is the existing church structure. In between each of the buildings is the transition. The outer façade of the transition is made up of a larger material, which will help to visually transition the eye from one space to another. While the brick on the exterior of the addition is a close match to the recognizable yellow Portage brick, it doesn't carry the same patina that the existing structure does. The door that can be seen in this image will provide access from the parking lot into the north stairwell, which will allow access to both the Gathering Space and the Dining Hall below.

## Worship Space Begins Change

There is a lot that still needs to happen in the existing Worship Space before we can use it, however, crews have begun to make some leeway on some of the ground work in this space. This week, the crews removed the old east side entrance from W. Cook St. This old access will be turned into a devotional area and will continue to provide much-needed light through a window, which will look out onto the street outside. The other major change happening in this space is the addition of more HVAC. This particular HVAC will be hidden inside of the wall for the new confessional, which will be built in the area of one of the old bathrooms. The other side will house some storage for liturgical furnishings and other ministries.
