NEWS FROM THE PARISH OFFICE

Spiritual Adoption—Month Two

Your baby is making progress developing all of his/her external features and internal organs. The brain is functioning at 40 days. His/her mother can hear the heartbeat now on an ultrasound stethoscope. Milk-teeth buds are present and it has been reported that a two-month old baby can suck his/her thumb. From this moment, your spiritually adopted baby grows and refines, but everything he/she needs to survive once born is already present by the end of the eighth week. Keep praying!
