## Life is Fun!

What changed human existence? In other words, what moved humans from simply existing to starting a journey towards eternity? The answer, the birth of Jesus. What opened the door to extending our journey? The answer, the death of Jesus. What moved us to walk through the door?

The answer, the resurrection of Jesus.

Jesus ascends into heaven, leaving us with a plan, a plan to continue our journey in this world until we too come before God. That plan, the Words of the Gospel, now guide us in our daily life. A life we would struggle with, if it were not for the Holy Spirit empowering each step within our journey.

For today, with the warmth of spring finally arriving, a few words on where we journey, that being the earth. Pope Francis has repeatedly noted the need to take care of our home, our common home, the earth. We should ask, where would we journey if it was not for the world God created for us? Yes, the world changed with the birth of Jesus, and now we are all challenged to be caretakers of that world to enable all to have a place, a place we can call home, until we are called to our eternal home.

Have you ever wondered what it takes to grow food, to sustain life? The obvious question involves our lives, our land, our food; after all, our need for food and space is paramount to our sustenance as we journey.

Plant life is essential to the balance of our food source, farms and ranches, so let us roll up our sleeves and get some dirt on our hands. Working the soil, planting seeds, and harvesting the produce literally creates new life while providing nourishment, both physically and spiritually for all involved.

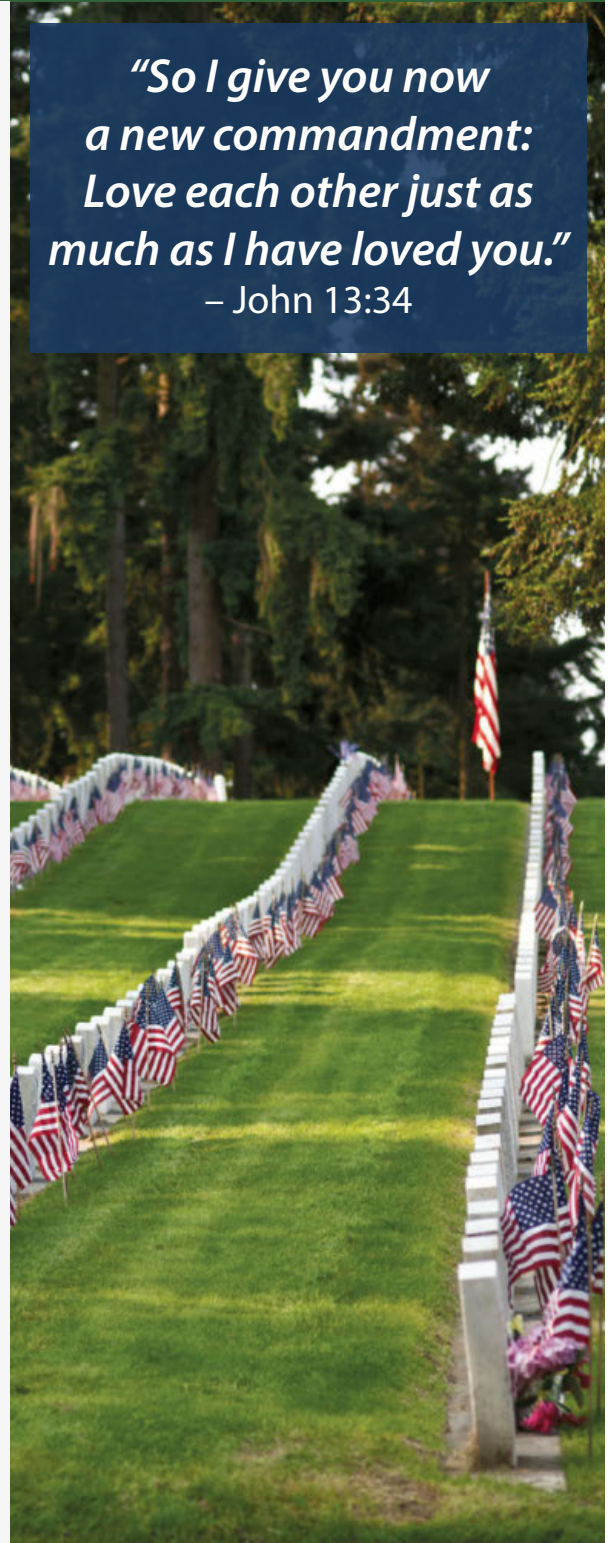

A small garden will not supply the world with food, but learning and participating will provide fresh produce in our parish and local community. As the garden grows so does our knowledge in producing the food we eat and hopefully that knowledge will expand to our own home gardens.

The heart of a healthy garden is land, and land is a function of healthy soil, the substance of earth. The many organisms that live in the soil require a healthy supply of water and air, the same water and air we use for our health and wellness. Wellness integrates joy through a balance of work and leisure. Life becomes fun.

Perhaps you have already heard or even participated, as the upcoming St. Patrick's Garden is again preparing to be fruitful. As sunshine expands, make a point to contact Jeremy Weakly, Pastoral Care and Outreach Coordinator for Saint Patrick's church to help with the garden, or if you're in need of fresh produce.
