**Know Your Catholic Faith****Laity**

There are estimated to be over one billion Roman Catholics in the world. A small percentage of these Catholics are the clergy: the bishops, priests and deacons. The majority are lay Catholics, otherwise known as the "laity." Even though there are clergy in the hierarchy, lay people in the Catholic Church are still expected to strive to embody the teachings of the Church and to share the gift of the Catholic faith; lay men and women should be active members of their own parishes and in the greater world. Lay people can act as everyday ministers of the faith, bringing the principles of Christianity and Catholicism to work, school, and home. Lay people can also take part in some of the sacred rituals of the Church by being altar servers, lectors, and lay ministers who can help distribute the Eucharist during Mass and to bring Holy Communion to shut-ins and those in hospital. Members of the laity reap the same benefits through living a life of faith and devotion as would the members of the clergy. (11:8)

Next week: Roman Curia.

If you would like a specific topic about the Catholic faith addressed, submit your question via email to [parish@assumptiongranger.org](mailto:parish@assumptiongranger.org) with "Catholic Faith" in the subject line.

**TAMANIQUE, OUR SISTER PARISH**

“Give a man a fish and you feed him for a day. Teach a man to fish and you feed him for a lifetime.” This proverb applies directly to our parish’s Tamanique project, which is in its tenth year. It provides scholarships to students in Tamanique, El Salvador, many of whom would not be able to attend, or finish, high school. Our scholarships pay only about 75 percent of the cost. The students and their families pay the rest. However, it’s enough to help graduates assist their families and communities, and find work in El Salvador instead of emigrating to the U.S. and other countries. It helps us fulfill our Christian obligation of building a more just world. Over the years, we have received innumerable letters of gratitude from the students and many of our parishioners have received the thanks personally in our annual visits there. The annual cost of a scholarship for one student is \$330, but we’ll take donations of any amount. To donate, or for information on our next trip to Tamanique please contact Tom Carney, 515 556-5068 or [carney133@msn.com](mailto:carney133@msn.com), or contact the parish office.

## Tamanique Scholarship Student Spotlight

*Every year Assumption parish provides scholarships to students in Tamanique, El Salvador. These scholarships help promote social justice by supporting those in the greatest need. For many of our students the reality is, no scholarship means no school. The scholarships are part of a program that provides much more than an award of money. All scholarship students create and implement a community project and take part in regular leadership workshops to further develop their impact as a citizen as well as their communication skills.*

*This week's student spotlight is:  
Dayana Melissa Galdámes Patiño*

Hello. My name is Dayana Melissa Galdámes Patiño. I'm 18 and live in the community of Buenos Aires in the municipality of Tamanique with my mother and father and two brothers. My mother has no formal education and but my father completed none grades.

The scholarship program has helped me in many areas. First, it has helped me financially because it has allowed me to continue studying in my second year of technical high school. Despite not having my grades for the first quarter this year, I have done my best to have an excellent academic performance regardless of the difficulties I faced. One of them was that I didn't quite understand some of my classes, and when I had my tests, I had difficulties answering them. I always do my homework because I'm aware of the responsibility and commitment I have to get good grades. Another difficulty is the lack of electricity at my house, so I can't charge my phone when I don't have battery to continue my homework. Thankfully, other scholarship recipients and I were beneficiaries of the solar panels project delivered by the Center for Interchange and Solidarity (which administers the scholarship program) in the context of the pandemic and online classes. The solar panel has helped me a lot because I can charge my phone. I take good care of it because it's very useful and I'm very grateful for it.

In addition, thanks to the program I have been able to socialize with other young people. I have met people with good hearts who help us to reflect about the importance of studying, moving forward in our education and not being afraid. They teach us to struggle to achieve our goals and dreams and always help others. I hope this program continues for many years, so other young people can be supported. Thank you so much for your help!

Sadly, due to the pandemic I didn't complete my social project. I had planned to help Lazaro Aparicio who teaches second grade at Buenos Aires School. I was able to help at the beginning of last year before the pandemic. I helped children who had difficulties reading and writing, and also making the classes more fun and dynamic. I also helped three students of seventh grade. They had difficulties doing research for their schoolwork since they didn't have internet or signal in their phones to investigate some themes. Last December, I started going to the Rosario de Fatima Chapel to help with the cleaning, and help on Sundays with the sales they do to raise funds for the chapel. I help on Thursday, Saturday and Sunday at the chapel. I hope I can help more in my community next year.

One of my obstacles is my family's financial situation, since my father is the only one who works. He is a farmer and his income is very low. I started to work at a restaurant in El Tunco beach in August last year. I only work on the weekends. Lack of electricity at home is also an obstacle as is not having my own computer for school work. During the pandemic things got complicated because we had to present every homework in a digital format and I only had my cellphone to do all my schoolwork, which was hard because I needed to charge my phone frequently. But CIS brought computers to a place nearby and contracted with an Internet provider. I'm very grateful.
