14TH SUNDAY IN ORDINARY TIME

When the sabbath came he began to teach in the synagogue, and many who heard him were astonished. They said, "Where did this man get all this? What kind of wisdom has been given him? What mighty deeds are wrought by his hands!" - Mk 6:2

Dear Parishioners,

I hope you are having a nice 4th of July weekend. As we celebrate our Independence Day as a nation, it is worth considering what the founding fathers were seeking independence from... and what they were hoping to seek independence for. The history of how the British colonies in America got to the point where they wanted independence is more complicated than just wanted to have a say in how we were taxed, but that is often what is remembered. The context was that Great Britain had been involved in a series of wars with France and other European powers and as some of those wars had happened in the colonies it seemed right to them to tax those who they saw benefiting from their efforts. The colonists at the time were not too keen on it, and over the course of several years, and some flash points of contention the call to independence was made. This set off the American Revolution in 1776 which concluded in 1783 with the Treaty of Paris.

It took some time for the new nation to work out what would be our constitution and bill of rights. Even then, it is one thing to set-up a complex three branch government and another for it to work together and become a functional governing machine. Over the nearly two and a half centuries of our nation the way our government functions have changed quite drastically, and has also seen some significant tests. There is in reality a need to constantly work out how the nation is governed and how it functions. With every new circumstance there arises a need to clarify how it will function. It's really quite remarkable how well the idea that was the founding father's dream has functioned.

How do we honor the past as well as protect the future? The past sacrifices that were made by men and women to keep the nation going in difficult times and to steer the path of the nation away from harmful or destructive forces has been a constant work. The "American Experiment or American Project" as it was called early on has lasted for longer than many predicted it would. Any time there are forces that threaten to tear the nation apart (whether those forces are internal or external), leaders have risen to the task of leading the nation into calmer waters or have kept it together through the storms that have arisen.

We stand now at another point in time, where there are many forces pushing or pulling our nation both from the inside and from the outside. Will there be a set of leaders who arise and take up the cause and the work of guiding the course of our nation to pass through? This is always a question. Every election cycle we seem to hear, "This election is critical..." And in some sense it is. It only takes one set of lawmakers, along with a president to let things get out of hand. We shouldn't take it for granted; especially in a time when there is clearly a lot of contending ideas which are strongly opposed to one another. In a time when there are deep divisions in how our political parties and leaders see the right path forward, we are especially susceptible to people taking drastic action.

We each take a serious look at our civic responsibilities as well as praying for our nation, and our leaders. To honor the past, we can and ought to seek the common good. As Catholics we have a unique perspective to bring. One that fits well with "Life—Liberty and the Pursuit of Happiness".

In Christ,
Fr. Eli

O St. Joseph, most glorious patron of our parish. Please aid us in building our new parish church. Help us secure the necessary funds, and skilled craftsmen to build a beautiful church which will give due honor and glory to God. Help us remain united and steadfast in our efforts to build a church where we can nourish and increase our faith for generations to come.

ST. JOSEPH PAROCHIAL SCHOOL REUNION

An all-class reunion for anyone who attended St. Joseph Parochial School is being planned for Saturday and Sunday, May 17-18, 2025, following the Third Annual St. Joseph Gala Friday, May 16. Reunion details are being determined, but possible activities include a dinner featuring recipes from the school hot lunch program, Mass, tours of the school with a memorabilia display, and a Saturday evening program. Planning committee members are currently compiling names and addresses of students who attended the school along with searching for pictures and other memorabilia. The next meeting of the planning committee is Sunday, July 14, between the 8:30 and 10:30 Masses in the church basement. Anyone is welcome to attend.

St. Joseph Parochial School opened in the fall of 1959 with 205 students enrolled in the first through sixth grades. The school was built under the guidance of pastor Fr. Joseph Cashen following a one-day fund drive spearheaded by Carney Middleton that exceeded the \$100,000 that was needed to build the school.

Teachers were provided by the Benedictine nuns who lived in a convent on Serpent Lake along with some laity. Students attended daily Mass followed by hot lunches in the church basement provide by women of the parish. The school was closed in 1975 following declining enrollments, escalating costs and other factors.

The building continues to serve the parish housing parish offices, an adoration chapel, various ministries, and space for educational classes. Former students are encouraged to come to a planning meeting or reach out to Mike Aulie with their contact information including siblings who attended the school. Mike can be reached at 763-498-2997 or mikeaulie@gmail.com.
