## We Are Many Parts but All One Body

Saint Paul uses the brilliant illustration of the human body to relate the working of the community of Christians. As a science teacher, I marvel at how every cell in a human body is linked by a common root, a common DNA code; yet the parts of our body look different, are treated differently, work differently and accomplish different purposes. That is the same with the great diversity in the body of Jesus Christ, both in appearance and function, yet each member has a common root and a common goal.

Not only is this diversity in the body of Jesus Christ acceptable, it is essential. The body cannot work properly if all are hands or if all are eyes. The body must have different parts and gifts, or it would not work together effectively as a body. No one part, or one person can do it all. We need each other.

When we begin to see the church as God sees it, we will see that God works the whole body together in one beautifully articulated and coordinated thing. The human body is the most beautifully balanced and delicately tuned instrument the world has ever seen. In the same way, there's nothing more beautiful or effective, nothing more exquisitely balanced, than the church of Jesus Christ. God has crafted it with care. Therefore, we ought to show great care for one another. We need to work together by the power of the Holy Spirit to continue to do Christ's work in our families, church and community.

**A Family Perspective from the Office of Family Life**

**Education:** In today's gospel, Jesus was "praised by all" except at home in Nazareth where the "eyes of all were intently on him." Acceptance can be hard to find at home due to unreal EXPECTATIONS. Jesus challenges us to "proclaim liberty" to anyone "oppressed" or "captive" by our EXPECTATIONS.

The Sanctuary Candle burns to remind us of the presence of Jesus in the Eucharist and in loving memory of Charles Colona & Frank Giordani at the request of Family
