FROM THE PASTOR'S DESK

Dear Parishioners,

There are some stories that we never get tired of hearing or telling. This is especially true of the Christmas story. Although it records the story of God's love, Christmas is far more than a story. At the heart of Christmas is a Person! God's Only-begotten Son, Whom we call Jesus because He saves us from our sins and from eternal death, so much does He love us! However, God intends that we do more than hear or tell the story of Christmas. God desires that we relive the Birth of His Only-begotten Son, Jesus Christ. How are we to relive the reality of Christmas? By our willingness to let Christ be formed in us.

This Christmas, like the shepherds, we too come in haste and find Mary, Joseph and the Holy Infant lying in the manger. As we gaze upon Him, lying in the manger and truly present on the altar, we offer Him the love of our hearts and ask Him to come and live in us; to come and be formed more deeply within our beings, so we can more and more become His people, eager to do good.

I look forward to seeing you this Christmas Season at Mass. Below you will find our Christmas Mass Schedule.

Sincerely, yours in Christ

Rev. Anthony Giamello
Pastor

There will be No RE for all Classes today.

Come join us for Christmas around the World January 2 at St. John the Apostle 10-1230

The fourth and last Sunday of the advent season is today. The fourth candle is lit on this day along with the first three. It is the Angel's candle, reminding of the heavenly hosts that proclaimed Christ's arrival with "Behold, I bring unto you good tiding of great joy!"

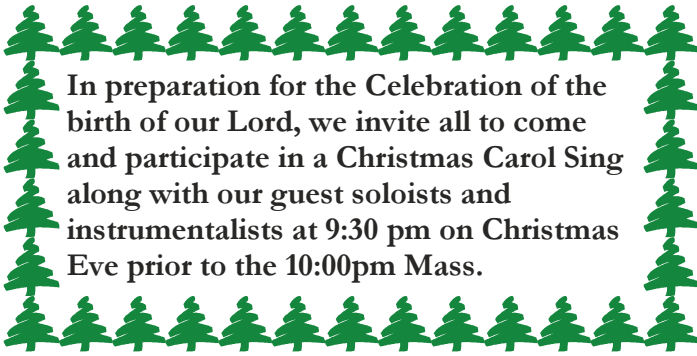

The theme of readings and teachings during Advent is often to prepare for the Second Coming while commemorating the First Coming of Christ at Christmas. With the view of directing the thoughts of Christians to the first coming of Jesus Christ as savior and to his second coming

Known in Mexico as "flor de Nochebuena" (Christmas Eve flower) and in the world as "Poinsettia," this flower of Mexican origin prevails today in homes during Christmas around the world. The Aztecs, who used it during several celebrations

dedicated to the god Huitzilopochtli, knew it as "cuetlaxóchtli," which means "flower that withers" in Nahuatl. The name comes from a myth of a rebellion of the Chontales group, who refused to pay the "taxes" imposed by the Aztecs. This rebellion happened in the place that today is Taxco, where a bush of white flowers grew. The Aztecs brutally defeated the Chontales, and the flowers withered after that (which explains the name). Because of the blood prints of the defeated ones, the bushes were covered with red flowers on the next blooming, symbolizing the spirit of the fallen ones. When the Spanish arrived, the flower was renamed as Nochebuena (Christmas Eve flower) because it could keep its red color during the Christmas celebrations. The Spanish missionaries took advantage of this opportunity to distance the symbolism from the blood of the defeated, and gave the flower a Christian reinterpretation. In the 19th century, the ambassador of the United States, Joel Robert Poinsett, saw the flower for the first time. The Christmas Eve flower was patented in the United States, where was named "Poinsettia," after the ambassador. Excerpts from @ 2018 FluentFlix Limited

"I Have Hope Again."

Local resident, Carl P. had been experiencing the painful effects of Peripheral Neuropathy, "my feet and legs were extremely painful and my doctor told me there was nothing they could do. That I would have to take Gabapentin for the rest of my life." Then he went to see acupuncturist, Ashley Adams.

Peripheral Neuropathy is the pain, discomfort and numbness caused by nerve damage of the peripheral nervous system. Carl explained that daily tasks like opening doors and using the bathroom were overwhelmingly painful. "How can you live for the next 20 years when you don't even want to get out of bed to do simple things?"

He was experiencing the burning, numbness, tingling and sharp pains that those suffering with neuropathy often describe. "The way that I would describe it, it's equivalent to walking on glass." Carl hadn't worn socks in five years and was wearing shoes two sizes too big so that nothing would 'touch' his feet.

Unfortunately Carl's story is all too familiar for the over 3 million people in the U.S. suffering from Peripheral Neuropathy.

If you are unfortunate enough to be facing the same disheartening prognosis, you're not sleeping at night because of the burning in your feet, you have difficulty walking, shopping or doing any activity for more than 30 minutes because of the pain.

You're struggling with balance and living in fear that you might fall. Your doctor told you to "just live with the pain" and you're taking medications that aren't working or have uncomfortable side effects. Know that there are options.

Fortunately, three months ago, Carl read an article about DelMarVa Acupuncture and the work being done to treat those suffering from Peripheral Neuropathy without invasive surgeries or medications. He can now share how significantly his life has been changed!

"Now when I go to bed at night I don't have those shooting pains. I don't have that burning sensation. I don't have pain coming up my legs," Carl enthusiastically describes life after receiving treatments. "I can comfortably wear socks and shoes and I can enjoy golfing again!"

Ashley Adams, founder of DelMarVa Acupuncture & Wellness Center, is using the time tested science of Acupuncture combined with technology originally developed by NASA that assists in increasing blood flow and expediting recovery and healing to treat this debilitating disease.

DelMarVa Acupuncture uses the most cutting edge and innovative integrative medicine. Specializing in chronic pain cases, specifically those that have been deemed 'hopeless' or 'untreatable', she consistently generates unparalleled results. What was once a missing link in senior healthcare is now easily accessible to the residents of Milford.

If you've missed too many tee times because of pain or you've passed on dancing along to songs of your youth because you're afraid of falling, it's time to give yourself a new opportunity.

It's time you let your golden years, BE GOLDEN!
