walking with purpose

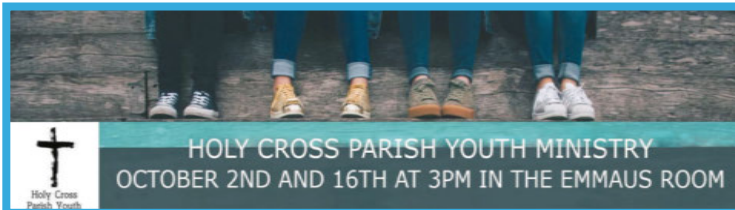

From the Pastor's Desk

"Has none but this foreigner returned to give thanks to God?" The recognition of God's presence and giving thanks for the gifts he gives is at the heart of the Gospel message this day. Jesus heals ten lepers and yet only one returns to thank him. It raises the question were the others not appreciative of the gift or did they just not realize that giving thanks was in order? This story should help us to realize what we owe to God and the proper response that is due.

God is constantly at work in our lives. He is always seeking to reach out to bring us healing and blessings. The question is do we recognize it or maybe more importantly are we even looking for it? How often have we prayed for God to intervene in our lives and then fail to see him? Failed to understand that the response to our prayers might be different than what we had prayed for and yet to be thankful for what has been provided? Just like the one who was healed in today's story we are called to return to God to give him thanks. To realize that he has interacted in our lives and given us an opportunity to feel his unabiding love and to express our deep appreciation. The act of being grateful, of returning to God in thanksgiving affords us the opportunity to receive even greater blessings. An abundance of God's merciful love poured upon us, but it can only begin by first returning to him and giving thanks. My brothers and sisters may we always be thankful for all the gifts that God gives us and in this way may we receive even more.
