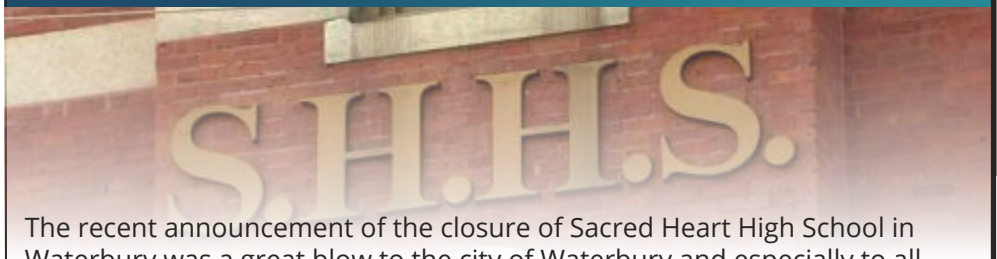
OF MANY THINGS...



The recent announcement of the closure of Sacred Heart High School in Waterbury was a great blow to the city of Waterbury and especially to all those of us who had been educated there over its 99 year history. I went there for my high school years graduating in 1964 and I taught there in 1975-1977. All but one of my siblings graduated from Sacred Heart as well. It was/is a great Catholic school and it has served the Waterbury Region very well. I loved my high school years there and the years I taught there as well.

There have been many outcries about this situation in the Waterbury newspaper and on Facebook blaming the archdiocese for the closure. However, what gets lost in the controversy is the fact that the archdiocese has supported Sacred Heart High School, contributing over $4 million to the school in recent years and has been working with the leadership of Sacred Heart to help it stay open. The larger and more significant problem appears to be a shift in the demographics of the Waterbury region.

Sacred Heart has always been a "city kid's school," drawing young people from the ethnic neighborhoods of Waterbury itself. The population of those neighborhoods has changed as families have moved out of Waterbury to the suburbs. Families living in the city of Waterbury either choose not to attend Sacred Heart High School or are unable to afford the tuition. Waterbury has a history of being a manufacturing center that welcomed immigrants who were able to learn a trade, get a job at one of the many factories in the city in those days and support their family. However, the factories have closed and the jobs have gone with them. Immigrants arriving in Waterbury have difficulty learning a trade and finding a job.

The leadership of Sacred Heart has worked diligently to raise funds and support for needy applicants. Our parish has been paying the tuition of one student each year at Sacred Heart for several years now as part of that effort. In my 18 years as pastor of Sacred Heart Parish, I believe that we have had only one student from our parish attend Sacred Heart High School. We normally have about a dozen parishioners/students at Holy Cross by comparison.

Running a school is an expensive venture these days especially without any supplemental support from the State. Add to this the demographic shifts that has decreased the pool of applicants for Catholic schools significantly and the rising tuition that results from all this and you can understand the difficult situation that faced the archdiocese and Sacred Heart High School. The school's enrollment has dropped from 355 to 249 over 5 years and anticipated 188 students for next year. Only 20 students had applied for the freshman class for 2021-22. While the pandemic may have affected that a bit, the bigger picture was not good. As a result, they had to make the difficult decision to close one year short of its 100th year of service.

I must admit that I feel a bit defensive about this situation being both a priest of the archdiocese as well as a graduate of Sacred Heart High School. However, I think it is important for accurate information to be available for the public conversation about this significant event for our region and our archdiocese. The ministry of Catholic education and Catholic faith formation is and has been an important part of our Catholic Church. We must determine the best way we can continue that ministry going forward.

-Father Joe

CONNECTICUT CATHOLIC *Public Affairs* CONFERENCE

HELP STOP STATE SPONSORED SUICIDE

The Connecticut General Assembly is considering legalizing a form of suicide in our state commonly referred to as "aid-in-dying" or "physician-assisted suicide". The legislation is House Bill 6425 "An Act Concerning Aid in Dying for Terminally Ill Patients".

Modern hospice care and the proper use of pain medications render suicide unnecessary, and we need to be mindful of the threat that a suicide mentality poses to vulnerable people and to people with disabilities.

Many people believe that a physician is deeply involved in this process. This not true. The physician orders the mixture of medications, the patient must then orally consume the deadly cocktail of drugs without assistance. Many times without even a physician or nurse present.

We should never allow legislators to establish suicide as a solution to medical issues.

Catholic teaching condemns physician-assisted suicide because it, like murder, involves taking an innocent human life:

Suicide is always as morally objectionable as murder. The Church's tradition has always rejected it as a gravely evil choice: To concur with the intention of another person to commit suicide and to help in carrying it out through so-called "assisted suicide" means to cooperate in, and at times to be the actual perpetrator of, an injustice which can never be excused, even if it is requested. Saint Augustine writes that "it is never licit to kill another: even if he should wish it." True "compassion" leads to sharing another's pain; it does not kill the person whose suffering we cannot bear. (John Paul II, The Gospel of Life, no. 66).

TAKE ACTION:

Go to the website below, ***read more on the issue*** and then sign the petition to stop the legalization of assisted suicide in Connecticut
