The climate is a common good, belonging to all and meant for all. At the global level, it is a complex system linked to many of the essential conditions for human life. A very solid scientific consensus indicates that we are presently witnessing a disturbing warming of the climatic system. In recent decades this warming has been accompanied by a constant rise in the sea level and, it would appear, by an increase of extreme weather events, even if a scientifically determinable cause cannot be assigned to each particular phenomenon. Humanity is called to recognize the need for changes of lifestyle, production and consumption, in order to combat this warming or at least the human causes which produce or aggravate it. It is true that there are other factors (such as volcanic activity, variations in the earth's orbit and axis, the solar cycle), yet a number of scientific studies indicate that most global warming in recent decades is due to the great concentration of greenhouse gases (carbon dioxide, methane, nitrogen oxides and others) released mainly as a result of human activity. As these gases build up in the atmosphere, they hamper the escape of heat produced by sunlight at the earth's surface. The problem is aggravated by a model of development based on the intensive use of fossil fuels, which is at the heart of the worldwide energy system. Another determining factor has been an increase in changed uses of the soil, principally deforestation for agricultural purposes.

## Welcome, Barbara Girard!

Barbara, the new parish secretary, is a long awaited arrival for the parish office. Barbara will arrive at Risen Christ on July 6<sup>th</sup>.

Since March 2020, when the Coronavirus pandemic brought typical activity everywhere to a near standstill, behind the scenes work continued at Risen Christ. The skeletal office staff of 1 - Deacon Don, can now begin to catch his breath.

Barbara most recently served as secretary at Nazareth, the diocesan Retreat Center in Boise, until its closure on June 30, 2021.

### **THE AMBO**

The ambo is the place where God's Word in Sacred Scripture is proclaimed to the gathered community of God's people. Situated on the same central axis as the font and altar, the ambo symbolizes the dignity and significance of the Word of God proclaimed during the liturgy. Its prominence is a fitting reminder that the table of God's Word is placed before the community together with the table of Christ's body. Those who come here are nourished by both the Word of Life and the Bread of Life. The altar and ambo are composed of solid native stone elements. This permanence of stone and its solidity speak to the nature of the furnishings. The altar and ambo also include a natural lyptus wood mensa and book rest. These wood elements, as well as the four corner grilles, speak to the table aspect of these furnishings. The similarity of design references our focus on the table of the Word and the table of the Lord. Grille elements on altar and ambo reflect simple tree and life forms. The "tree of life" bronze grille found in the processional cross also bears reference to regional trees, making connections to our city's name.
