Sacristans: Mel Portillo and Tim Barrington

Dear Parishioners and Friends of St. Joseph’s Cathedral:

Easter captivates the imagination of people from every nation. The dark purple of Lenten vestments is replaced by festive white and gold, the somber music of Lent gives way to joyful alleluias, and even the weather improves as the heavy rains of this past winter relinquish their grasp on the Bay Area and the sun is finally breaking through the clouds. Easter is a time of new life and renewed hope. This message of renewed hope is a powerful message, especially as we begin slowly to emerge from a global pandemic. The pandemic has taken too many lives and has disrupted greatly our daily routines. Hope in this time of pandemic seems contrary to our experience. This hope, however, is rooted in faith.

Perhaps the most captivating aspect of Easter is our assertion as Christians that Jesus experienced death and returned with tidings of forgiveness and peace to the very people who betrayed, denied and abandoned him. He returned assuring those whom he met that they too could overcome death by having faith in him and following him in discipleship. He returned with a message of hope. We gather today as disciples of Jesus who has invited us to believe in him and to follow him. Our celebration renews our hope in eternal life and strengthens our resolve to live more fully the mystery of our life in Christ.

If you are visiting us this weekend, please know that you are always welcome here at St. Joseph’s Cathedral. We are committed to proclaiming the Gospel of Jesus, sharing our faith, and serving the poor. If you live in the area, I hope you will consider exploring a deeper relationship with God in the context of this parish community.

Know that I join the entire staff of the Cathedral in wishing all of you a blessed and peaceful Easter Season.

In the Risen Christ,

Fr. Joseph M. Benedict, Pastor

**What is the position of the Catholic Church concerning vaccinations in general?**

The Catholic Church teaches we must protect human life from conception to natural death. Vaccines are one way to gain immunity from a virus. They have various origins, traditionally relying on a weakened or harmless form of the virus. More recently, thanks to advances in science, technology can provide the effect of vaccination without using the virus itself. The Church teaches the process of developing vaccines should always respect the human dignity of all persons, including the unborn. Avoidance of vaccination carries with it dangerous and potentially deadly consequences for the most vulnerable in society. The Catholic Church strongly supports vaccination and regards Catholics as having a duty to be vaccinated, not only for the sake of their own health but also out of solidarity with others, especially the most vulnerable. Visit [www.dsj.org/COVID19vaccines](http://www.dsj.org/COVID19vaccines) for more information.

### THE RESURRECTION OF THE LORD

**Jesus has risen.**

**Children:** What sacrifices do you make for those whom you love?

**Youth:** Even the disciples had a hard time understanding Jesus' Resurrection – it is that surprising. What does Resurrection mean to you? What does Easter mean to you?

**Adults:** In what ways has God called you to die in Christ? How is this expressed in your own life?
