RESPECT LIFE MONTH

St. Joseph, defender of life, pray for us!

According to the US Conference of Catholic Bishops (USCCB), the Church teaches that "As a gift from God, every human life is sacred from conception to natural death. The life and dignity of every person must be respected and protected at every stage and in every condition. The right to life is the first and most fundamental principle of human rights that leads Catholics to actively work for a world of greater respect for human life and greater commitment to justice and peace."

This teaching has far-reaching implications beyond the abortion and birth control issues we hear so much about. The Catholic Church believes that "human life is sacred and that the dignity of the human person is the foundation of a moral vision for society. This belief is the foundation of all the principles of our social teaching. We believe that every person is precious, that people are more important than things, and that the measure of every institution is whether it threatens or enhances the life and dignity of the human person."

...people are more important than things...
