Consumer's Shut Off Protection

Are you 65 yrs. or older and head of the household? Call Consumers

Energy 1.800.477.5050 so you can qualify for shut off protection, no late payment charges, and automatic eligibility for payment plans regardless of income.

Home heating help... Winter heating bills can have a major impact on household budgets. For people having trouble paying utility bills, it is extremely important to know that help with winter heating bills may be available. There are several energy assistance programs for eligible senior citizens and low income customers. Customers with heating bills, that they are unable to pay, should first contact their utility company or energy supplier and explain their situation before receiving a shut-off notice.

Winter Protection Plan

While senior citizens, regardless of income, are protected from shut-offs during the heating season, the Winter Protection Plan (WPP) protects both seniors and low-income customers of MPSC-regulated natural gas and electric companies. Customers may find relief from electric or natural gas service shut-off and high utility payments between November 1st and March 31.

Person qualify for the plan if they meet any of the following criteria:

- ◆ Are age 65 or older
- ◆ Receive Michigan Department of Health and Human Services cash or food assistance, or Medicaid
- ◆ Have a household income at or below 150% of the federal poverty level guidelines

Eligible senior citizens participating in WPP are not required to make specific monthly payments during heating season. The WPP allows eligible low-income customers to make monthly payments equal to 7% of their estimated annual bill, November through March, and avoid shut-off during that time even if their bills are higher.

At the end of the protection period, both low-income & senior citizens taking part in the plan must pay off any money owed in installments between April & November.

To apply for this or other shut-off protection plans, contact your utility company.
