National Vocation Awareness week

Is celebrated November 7-13, 2021, is an annual week-long celebration of the Catholic Church in the United States dedicated to promoting vocations to the priesthood, diaconate, and consecrated life through prayer and education, and to renew our prayers and support for those who are considering one of these particular vocations. NVAW began in 1976 when the U. S. bishops designated the 28th Sunday of the year for NVAW. In 1997, this celebration was moved to coincide with the Feast of the Baptism of the Lord, which falls on January 13 in 2013. Beginning in 2014, NVAW was moved to the first full week of November.

Prayer for Vocations

God our Father,

we thank you for calling men and women to serve in your Son's Kingdom as priests, deacons, and consecrated persons.

Send your Holy Spirit to help others to respond generously and courageously to your call.

May our community of faith support vocations of sacrificial love in our youth and young adults.

Through our Lord Jesus Christ, who lives and reigns with you in the unity of the Holy Spirit, one God, forever and ever.

Amen

Health & Caring Ministry

November is American Diabetes Month.

Diabetes is a disease in which the body does not produce or properly use insulin. Insulin is a hormone that is needed to convert sugar, starches and other food into energy needed for daily life. The cause of diabetes continues to be a mystery, although both genetics and environmental factors such as obesity and lack of exercise appear to play roles.

Diabetes does not mean the end of a full life, active life. Some changes might be required, but you can still do many things you enjoy. Most Diabetes can be controlled with regular exercise , following a meal plan to achieve an ideal weight, and taking medication.

TYPE 1 DIABETES - *Pancreas makes little or no insulin due to an autoimmune problem.*

Type 2 DIABETES - *Body doesn't make enough insulin, or insulin doesn't work the way it should.*

GESTATIONAL DIABETES - *Pregnancy affects the way the body uses sugar (patient at increased risk for Type 2 Diabetes later in life)*

IMPAIRED GLUCOSE TOLERANCE - (pre-Diabetes*) Insulin is made but not functioning properly.*

SECONDARY DIABETES - *Due to some process that either reduces insulin production or insulin usage (e.g. pancreatic disease , steroid use)*

Veterans Day (originally known as **Armistice Day**) is a federal holiday in the United States observed annually on November 11, for honoring military veterans, who are people who have served in the United States Armed Forces (that were discharged under conditions other than dishonorable). Major hostilities of World War I were formally ended at the 11th hour of the 11th day of the 11th month of 1918 when the Armistice with Germany went into effect. At the urging of major U.S. veteran organizations, Armistice Day was renamed Veterans Day in 1954.

Veterans Day is distinct from Memorial Day, a U.S. public holiday in May. Veterans Day celebrates the service of all U.S. military veterans, while Memorial Day honors those who had *died* while in military service. Another military holiday that also occurs in May, Armed Forces Day, honors those *currently serving* in the U.S. military. Additionally, Women Veterans Day is recognized by a growing number of U.S. states that specifically honor women who have served in the U.S. military.

CONFIRMATION STUDENTS and many of their parents volunteered their Sat morning at All Faith's Food Bank. We were able to, in the course of 3 hours, prepare 2500 bags of food/ snacks for local students to take home in their back packs!! What a difference we can make when we work together towards a common goal!! It truly is how Mother Teresa said it: Do small things with great love." Thank you to all who shared their time.
