

BERLIN SENIOR CENTER

Stay Home. Stay Safe. Stay Connected.

An Important Update

In lieu of our usual program-filled newsletter, we are putting out this Special Edition newsletter this month, which is filled with helpful resources that will be useful at home, during this time when our building is closed to the public. It will include some activities to keep you busy at home, some important information on how to **Stay Home. Stay Safe.**, and best practices to stay healthy and guard yourselves against COVID-19. We look forward to the day that we can safely reopen, but until that time, we remain committed as ever to be a support and resource to our community. Together, we will get through this!

Highlights in this Issue

- Important Information on COVID-19
- Tips on Staying Busy
- Community Resources
- Senior Center Updates

IMPORTANT INFORMATION ABOUT COVID-19

Individuals at Increased Risk of Severe Illness from COVID-19 Include

- People with serious chronic medical conditions like: heart disease, diabetes, lung disease, kidney disease or those who are immunocompromised.
- Adults over the age of 60.

Take Everyday Preventative Actions

1. Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing or having been in a public place.
2. If soap and water are not available, use hand sanitizer that contains at least 60% alcohol.
3. To the extent possible, avoid touching high-touch surfaces in public places-elevator buttons, door handles, handrails, handshaking with people, etc.
4. Avoid touching your face, nose, eyes, etc.
5. Clean and disinfect your home to remove germs: practice routine cleaning of frequently touched surfaces (for example: tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks & cell phones).
6. Avoid crowds, and practice social distancing of a minimum of 6 feet between people when out in public.
7. Avoid all non-essential travel.
8. Consider ways of getting food brought to your home through family, social or commercial networks.
9. Stay in touch with others by phone or email. You may need to ask for help from friends, family, neighbors, community healthy workers, etc. if you become sick.

Staying Calm & Reducing Fear During COVID-19

With coronavirus (COVID-19) now a global pandemic, anxiety and stress levels may be higher than normal for many people. If you already struggle with mental health problems, you may worry about the impact of COVID-19 on your condition. Here's what you need to know about COVID-19 and mental health, and how to keep yourself calm during the outbreak.

Why COVID-19 is Tough on Your Mental Health

There is so much uncertainty around what's going to happen with COVID-19 that people are understandably feeling anxious. Jobs may be at risk, elderly family members are vulnerable, and many of us are now forced to change our daily routines. What's more, we're constantly flooded with news, statistics, and fresh emergency guidelines, and it's mentally draining for everyone. So, how do we combat all this stress and stay calm?

- 1. Practice Self Care:** With so much beyond our control right now, focus on what you can control. Get more sleep, read a new book, have a warm bath, or take a walk somewhere quiet-whatever you do, now is the time to prioritize your well-being.
- 2. Limit social media use:** Set limits on how often you use social media, especially if you're home where it is tempting to check in more often. Don't let a constant stream of tweets, status updates and conflicting opinions overwhelm you.
- 3. Read only reliable news sources:** Stay informed by reading only reliable sources, such as government websites, the WHO, and the CDC. Other news sources may be less accurate, and they may cause feelings of panic and concern.
- 4. Talk it out:** Acknowledge any stress or anxiety you're feeling right now, and ask others how they're coping. Talk to family and friends, and make sure to check in with each other regularly

Handling Self-isolation and Quarantine

If you're showing flu-like symptoms or simply self-isolating, here are some specific tips to get through the next few weeks and months.

- 1. Maintain your routine:** It's important to maintain a sense of normalcy, where possible. Wake up on time, shower, go for a walk, do things that you would ordinarily enjoy doing.
- 2. Stay in touch where possible:** Whether you use video chats, emails or voice calls, check in with family and friends regularly. Send each other gifs, have virtual movie nights and keep your spirits up.
- 3. Ask for help:** If you're feeling lonely, or need help getting supplies during the isolation period, reach out to family, friends or your local community. You'd be surprised how many people are willing to help at a challenging time like this.
- 4. Look after your body:** Don't neglect taking care of yourself just because you're stuck at home. Try out meditation, yoga or other at-home workouts, and eat nutritious meals -your body needs all of the support it can get right now.

Reminder

Everyone reacts to stressful situations and changing circumstances differently, and it is natural to feel overwhelmed at times. Take care of yourself, your family and your friends and don't be afraid to ask for help if you need it. Remember, we're all in this together -stay connected to those around you, focus on what you can control and don't allow yourself to burn out.

Watch for Symptoms and Emergency Warning Signs

1. Pay attention for potential COVID-19 symptoms including fever, cough and shortness of breath. If you feels like you are developing symptoms, call your doctor.
2. If you develop emergency warning signs for COVID-19 get medical attention immediately. In adults, emergency warning signs: difficulty breathing or shortness of breath, persistent pain or pressure in the chest, new confusion or inability to wake up, bluish lips or face.

Beware of COVID-19 Scams

A new scam has arisen in 2020 where calls are being made to seniors about a new Medicare card. The callers ask you to provide them with the number on your current Medicare and may ask for additional personal info (social security number, address, etc.). There is no new Medicare card and Medicare will never call to ask for your info. **DO NOT PROVIDE ANY INFORMATION.**

Criminals looking to make a buck are calling, emailing and advertising cures to prevent and /or stop COVID-19. ***These are fake. There is currently no cure for COVID-19.***

The Department of Health and Human Services (HHS) issues information on a fake online Coronavirus map that delivers a well known malware. A malicious website pretending to be the live map for COVID-19 Global Cases by Johns Hopkins University is circulating on the internet waiting for unwitting internet users to visit the website. Visiting the website infects the user with the AZORult trojan, an information stealing program which can exfiltrate a variety of sensitive data. It is likely being spread via infected email attachments, malicious online advertisements, and social engineering. Furthermore, anyone searching the internet for a Coronavirus map could unwittingly navigate to this malicious website.

Infoline 2-1-1

2-1-1 is your one-stop connection to the local services you need, from utility assistance, food, housing, child care, after school programs, elder care, crisis intervention and much more. 2-1-1 is always ready to assist you in finding the help you need. 2020 Census: Your Response Matters

Census results help determine how billions of dollars in federal funding flow into states and communities, they determine how many seats in Congress each state gets, and it's mandated by the US Constitution. There are three ways to complete your census: online, by phone or by mail. www.2020census.gov

Flower Power!

Here's a word search printable and ready for you to solve. How quickly can you find the names of 30 flowers? Answers may appear in any direction.

Here's the twist: The word list contains just 29 flowers. You need to find the 30th one on your own. **Hint:** It's a very popular flower, spelled with just four letters.
