

About Us

Making *Life Easier*®

Our history summary...

Home Helpers Franchise was founded in 1997 to serve the ever-growing community of people who wish to remain independent in the place they call home, but require some degree of assistance with everyday living. Today, as one of most reliable and trusted home care agencies, we pride ourselves on providing exceptional care and support to seniors, new and expectant mothers, working parents, individuals recuperating from recent illness or injury, and those facing cognitive diseases, hospice and lifelong challenges. Our agency has been serving communities in and around the South Shore for over 16 years. In 2020 there was a change in the agency ownership. Scott Nickerson, born, raised, and educated in the South Shore has purchased the franchise. We also service Plymouth, Cape Cod and the Islands. We would love the opportunity to talk to you further about our value and experienced caregiving.

Our full range of in-home care services empower clients to enjoy their best quality of living given their unique personal situation, enabling them to live healthier, happier and more rewarding lives in the privacy, safety and comfort in the place they call home.

It's possible you already are benefitting from some of the services listed below; however, if not, please keep us in mind for any future needs. Home Helpers can provide services in hospitals, nursing homes, rehabilitation facilities, independent, retirement, or assisted living communities, so even if you relocate, we can still serve you!

Some of our Services...

Companionship

Our caregivers focus on providing social and physical stimulation to keep people active and engaged.

General Assistance

Our caregivers can assist with instrumental activities of everyday living (IADLs). Examples are, housekeeping, laundry, preparing and cooking meals, sorting through mail or organizing personal affairs and exercise and medication reminders.

Personal Care

Caregivers can provide assistance with activities of daily living (ADLs) dressing, grooming, hygiene and transferring from a bed to a chair or a chair to a toilet.

About Us

Care Management

A Home Helpers registered nurse can coordinate and manage physician visits and medications, while acting as the liaison between the medical staff and the families to ensure the client's overall health and well-being.

Medication Management

A trained Home Helpers health care professional can administer dosage directly or load our Direct Link automated medication dispenser to release the medications at preset times. Caregivers (PCA, HHA, CNAs are prohibited from handling, dosing, or administering medications). They are allowed to remind clients only.

Vital Signs Monitoring

You or your loved one can easily monitor chronic illnesses, such as diabetes, congestive heart failure, hypertension or COPD, using our Direct Link vital signs monitoring units for glucose, blood pressure, pulse and weight, or a Home Helpers health care professional can perform these services. The unit is also a GPS.

Transportation

Caregivers can assist you or your loved one to prepare for an outing. We will provide transportation to and from appointments, errands, the beauty salon/barber shop, lunch at a favorite restaurant or just to visit family and friends.

Medical Alert Systems

Our exclusive Direct Link line of medical alert systems includes personal emergency response systems, an automated medication dispenser and vital signs monitoring units. Valuable devices that can provide an added sense of security.

Nutrition and Hydration

We can provide healthy meals delivered to your door. They all have been prepared by chefs and flash frozen to seal in freshness. Hydration & Nutrition awareness are keys to staying healthy, and staying away from ER's and being admitted or re-admitted.

Please email, call, or visit our website and FB page for a FREE in- home, no obligation assessment. This also includes a FREE home and environment safety evaluation. The Goals for each client are to keep them safe, healthy, happy, and living independently. Aging or recuperating at home is their best opportunity for long term success.

Please click or call TODAY to discuss your situation or immediate needs.
