THE *Community*

Taking Control is a unique program that can allow eligible Medicaid recipients to remain independent in their own home with the assistance of a Personal Care Aide. Assistance with daily living activities can be key to being self-sufficient and remaining in one's community. The person in the home becomes the employer of their PCA; hiring who they wish, including a relative. Our Staff can help with finding a PCA if needed, then ILGR will take care of the PCA's payroll and all of the Dept. of Labor aspects of employment. The service is paid for by Medicaid and allows a person to be "Taking Control" of their own care; hence Independent Living has labeled their program as such. When you or your family are overwhelmed by the increasing need for assistance, consider calling us for guidance in enrolling in Taking Control. We can assist with phone calls, evaluations and finding a Personal Care Aide; or we can just explain the process.
