### What Does the Catholic Church Teach About…?**

**Question:**

What determines the date Easter Sunday falls on or when Lent begins and why can’t Easter Sunday be a fixed Sunday during the year?

**My Answer:**

From Franciscanmedia.org

The Council of Nicaea, in 325 A.D., determined that Easter should be celebrated on the first Sunday after the first full moon of spring. To determine the beginning of Lent, count back six Sundays before Easter. The Wednesday before the first of these Sundays is Ash Wednesday.

And yes, Easter could have a permanent date. The Roman Catholic Church has indicated its openness to this if a common agreement can be reached among all Christians. Because such an agreement already exists among Catholics and Protestant denominations, any change will involve discussions with the Orthodox Churches.

A bit of background may help here. In the earliest years of Christianity, Easter was celebrated on Passover (14th day of the month of Nisan, based on a lunar calendar). Eventually, most Christians came from a gentile background and began to look for a date based on the solar calendar. The dating system on or when Lent begins and why can’t Easter Sunday be a fixed Sunday during the year?

**Have a question? Let me know at thomasmccoy18@stlouis.edu** There is never a dumb question. The answer may not be what you think, but do not let that keep you from asking.
